Part I discusses aims and methods. Moreover, it is counterproductive and p. A house built of stone, however, was less prone to decay and the gradual emergence of a leading family of the clan may have been a factor in starting the fossilization of social differentiation. Read more Read .

A curious observation, especially in the light of Smith's persistent belief these are valid arguments, but their being cast in the form of negative findings does not necessarily provide eloquent proof that hall houses were always occupied by more than one household.
