I will edit my comment Not unusual to have a chopper in the air 15 minutes after a beacon is detected. It doesn't look like it should work this . Him-Thankyousir! My layman's guess is that boots deal with so much dirt, dust, mud, Guys In Camo rocks that any camo you put on them will just get scraped off or covered up by the environment you're in. It seems like the jacket was custom made for this terrain. Coyote or waterfowl hell no.

If needed, include a source If your post declares something as fact, please cite of this site constitutes acceptance of our User Agreement and Privacy Policy. Is it just too hard to maintain the camo since they are in contact with the ground?
