Results The age range of 33 subjects was years. In our study, men associated the meaning of "menopause" directly with the ending of the fecundity period. In several studies, women have reported that they had not used any hormone therapy, any medicine for the distress or the insomnia that menopause causes, and any calcium supplement concerning menopause. It happens between the ages of Lists What are lists? Therefore some of them thought that it would be a coercion to consult a doctor. Men preferred their wives to continue to menstruate because they did not want their sexual life to come to an end. Estrogen--Therapeutic use--Congresses. One of the researchers acted as the facilitator and the other as the observer.
