Welcome This is where you can find research-based information from America's land-grant universities enabled by extension. Purchasing habitat lands may well cost the Government less in many circumstances than pursuing civil or criminal penalties This kind of information is critical to making sound wildlifemanagement decisions. In light of the extensive duration of these HCPs, the large area that each plan covers, and the enormous numbers of species that are supposed to be protected under each of these plans, an obvious question about the "No Surprises" policy is: The mouflon sheep eat the leaves, stems, seedlings, and basal shoots of the mamane tree. In addition to the statutory provisions described above, Section 5 of the ESA this message to accept cookies or find out how to manage your cookie settings.
