Your problem is that gyresyjisugq is matched by the first pattern so the second pattern is made redundant. This might seem like a hacky way of doing.

javascript - how to minify js files in order via grunt-contrib-uglify? - Stack Overflow

how can I concatenate the files in a specific order? I'm using regexp to concatenate multiple files but I need one of them to be at the end.

gyresyjisugq - Grunt: The JavaScript Task Runner

I'm a grunt rookie and I want to control the order in which watch tasks execute. I need to run a shell command to clear the terminal and then compile sass. In each watch target, you can specify an array of tasks and the order in which you desire them to run.
