The final chapter, "Human and Machine," explores the relationship between steam boiler explosions Language defined sets of oppositions that demarcated class. His eloquent narrative demonstrates that class is as much about the comprehension of social relations as it is about the making of social relations, and that class formation needs to be understood not only as a social struggle but as a conceptual struggle.

Built on the Johns Hopkins University Campus. Bythen,Riceconcludes,languagesthatmadeexplicit"claimstosocialauth also claims that the machine became an important metaphor for the body and therefore "helped to naturalize the work of machine-tending, since all bodies were, by design, like machines that required operatives to work well"
